The Story of NurseTim®, Inc.

NurseTim®, Inc. began in clinical. The name “Nurse Tim” was embroidered in large print on Dr. Bristol’s lab coat so clients, students, and staff could clearly see he was a nurse. In 2003, Nurse Tim began sharing with other faculty how to integrate innovations in the classroom. From notecards to simulators, he helped faculty develop higher order thinking learning activities, regardless of their budget or background. What began as helping other schools in the community, quickly grew nationally as many schools desired to improve their practice as educators, and the company, NurseTim®, was born.

As the need for help in classroom management, curriculum development, and, ultimately, student success grew, so did NurseTim®. It quickly became clear that one faculty member traveling would not be enough, so decisions were made to expand. First, an online webinar subscription service was introduced. These hands-on, engaging videos were able to reach faculty that could not attend a conference. Second, we needed to grow the NurseTim® team to keep up with demand. Over the years we have continued to add high-quality educators as NurseTim® consultants, and today we have over 45 online presenters and over 30 traveling consultants.

As NurseTim® continued to grow, so did its passion to see not only faculty succeed, but students as well. NurseThink®, a brand of NurseTim®, was developed for faculty and students. The whole goal of NurseThink® is to give students the power they need to study and learn more effectively. NurseThink® is all about the development of clinical judgment skills in every student across the curriculum.

“Today, we will learn how to learn.” - Tim J. Bristol, PhD, RN, CNE, ANEF, FAAN

What People are Saying About NurseTim®

“On behalf of all the faculty who attended the workshop, I would like to extend our appreciation for an excellent learning experience. I have heard from many faculty who said that it was engaging, useful, and provided them with many ideas on how they can incorporate technology in their classrooms to improve how they teach. I personally want to thank you for designing the workshop to meet our unique needs.”

- Bonnie, Assistant Professor
What Do We Do?

Partnering With You by Offering Four Areas of Focus

Webinars
With over 125 webinars available in our catalog, our goal is to offer you convenient, cost-effective, and comprehensive faculty development. New webinars are offered each month with relevant, practical topics and user-friendly take-home information you can use immediately. Nursing contact hours are also available for most of the sessions.

Consultations
Whether it’s on your campus, at your conference, or virtually, our speakers/consultants are available for an engaging visit that will target your specific needs. From curricular alignment to new accreditation standards to NCLEX® and test item writing, NurseTim® specializes in helping you succeed.

Conferences
NurseTim® produces conferences throughout the year in various locations. Whether it’s our annual Nuts & Bolts Conference held every year in Minneapolis, or any of the other conferences we offer, we believe in providing live presentations that engage participants and offer you tools you can implement immediately.

NCLEX® Success
NurseThink® has the tools you need for NCLEX® success. From an onsite NCLEX® Review to our NCLEX® Review Guide for students to our Test Item Writing workshops, we offer products and services to help you and your students be successful in preparing for and taking the Next Gen NCLEX®. New! We also create both customized and standardized exams!

Creating a culture of clinical judgment for every learner, educator, and program.

“I absolutely loved this conference! I would highly recommend this conference to any nurse educator. It has been the best nursing conference I have ever attended.”
- Michelle, conference attendee

“Tim’s presentation was OUTSTANDING! I have been in nursing education for 11 years and have attended many conferences. This conference has transformed my approach to classroom teaching.”
- Jayme, conference attendee

What can you Expect From a NurseTim® Webinar?
Simplicity. Each webinar averages 60 minutes and easily connects you with a range of speakers and topics. All you need to do is click “play!” If you can watch an online video, you can participate in a NurseTim® webinar! Technology requirements are minimal. All handouts, tools, and samples are included and can be downloaded. We emphasize a hands-on approach for your success.

NurseTim® Webinar Subscriptions Include:
› 12 months of unlimited access to 125+ live and recorded webinars.
› Unlimited approved contact hours of NCPD.
› Opportunity to dialogue with nationally-known experts, including Diane Billings, Michele Deck, Marilyn Oermann and many more!
› Unlimited access to our certification preparation webinars.
› Special discounts on NurseTim® conferences and consultations.
› Institutional subscriptions include the Student Success 6-Pack for all your students.

Convenient
Hassle-free faculty development to fit your schedule:
Any Time
With on-demand webinars, you can participate and view on your own time.
Any Place
You can watch our webinars anywhere with a phone, tablet, or computer. With NurseTim® webinars, you can bring nationally-known speakers right to you!

Cost-Effective
No travel, no hassle, and fees that fit any budget. NurseTim® webinars are one of the most affordable solutions for department-wide faculty development.

Comprehensive
From Test Item Writing to Concept Mapping to Incivility in the Classroom, NurseTim® webinars cover all the pertinent topics for nurse educators, clinical faculty, preceptors, and graduate students. The current webinar catalog can be found at NurseTim.com/webinars.

Our goal with all of our NurseTim® conferences, whether live or online, is to provide presentations that engage and challenge participants. We bring together dynamic quality speakers to share their knowledge and experience with you. Offering topics that are relevant to your career and opportunities for hands-on activities, you will leave our conferences energized, inspired, and with tools that you can implement immediately. We offer a variety of conferences throughout the year and throughout the country.

Nuts & Bolts for Nurse Educators
At our Nuts & Bolts conference, you will learn strategies from some of the top nurse educators in the country, and you will work alongside them to improve your classroom, lab/sim, and clinical learning environments. This one-of-a-kind event is known for giving you immediately usable strategies through a hands-on workshop approach.

New Faculty Orientation Online Conference
The transition from expert clinician to novice educator is challenging. We focus on several of the most common topics of interest among new nurse educators ranging from issues of the learner, curriculum, course, testing and more.

Next Gen Learning
Next Gen Learning is no longer optional for Nursing Students. Every class, lab, and clinical experience must help the student develop their own clinical judgment skills. This hands-on experience for faculty will give every educator at every level the opportunity to develop higher-order learning and assessment activities for students. Regardless of your type of curriculum or teaching style, you will walk away with tools you can use right away. Whether you are teaching Fundamentals or NCLEX® success, we have you covered. Emphasis will be placed on learning and assessment strategies that can be used in multiple environments.

NurseThink® NCLEX® PreView/Review (1 or 2 Days for Students)
The NurseThink® NCLEX® PreView and ReView focuses solely on clinical judgment. By helping students focus on the bedside, they are being prepared for the Next Gen NCLEX®. Our NCLEX® PreView and ReView is different in that the students will know what they don't know through direct nursing care. The patient assignments help the students enhance their clinical judgment skills to totally prepare them for the new NCLEX® focus.

One-of-a-kind tools that prepares the student for NCLEX® by taking them to the BEDSIDE. Every page of these books is packed with the clinical practice essential to developing the clinical judgment needed for passing NCLEX® the first time.

NurseThink® for Students: Conceptual Clinical Cases
This one-of-a-kind case study book features concept-based cases that unfold using the Next Gen Clinical Judgment model. These “real life,” current-to-practice scenarios include electronic health records, medication reconciliation activities, discharge instructions and much more! They are engaging for the student because of the bedside focus. The cases unfold using multiple choice, alternative style, and Next Gen item formatting to prepare students for the most current testing needs. Your students will learn to consistently apply the high-level thinking processes of THIN Thinking and Prioritization Power that makes clinical judgment a habit for nursing practice.

NurseThink® for Students: The NoteBook
The NurseThink® NoteBook teaches students at all levels to develop clinical judgment skills by habitually applying a methodical way of analyzing information. Designed to raise the level of cognitive learning in a shorter amount of time, The NoteBook allows students to move from acquiring knowledge to application and analysis. This allows them to prioritize their note taking and can be used in class, lab/sim, and clinical to remind them of what they already know. Learners will take notes as if they are standing next to a patient.

As a new nurse educator, you all gave me invaluable teaching tools that I feel I can take back and share with my faculty…Thank you for your time. Thank you for your excellence. Thank you for your attention to detail. Thank you for reminding us why we do what we do.”

- Kelly, conference attendee

“Even as an experienced (14 years) educator, the conference provided great insight to adding NCLEX® in the classroom and clinical, bringing clinical into the classroom, and lots of active learning strategies! Excellent conference for new and experienced educators!”

- Camille, conference attendee
